SUMMER WILL BE HERE BEFORE YOU KNOW IT!

It is so cold right now it is difficult to think about the heat of summer but it will be upon us in no time at all. That is why we feel now is the perfect time to think about an upgrade of your current air conditioning or evaporative cooler.

Call Evelyn at 970-945-2326 or in the Vail area call 970-479-6390 and mention promo code 03EC10 to set up an appointment for a free estimate with one of our experienced Comfort Specialists.

We perform complete system installs. It is usually possible to add A/C to your existing furnace or fan coil system, install a wall mounted mini split system or one of the new ducted units if you do not have an existing forced air system.

It is now a good time to take advantage of any tax credits you or your customers may be qualified for through **The American Recovery and Reinvestment Act of 2009**. Further information regarding these tax credits is available online or by contacting your personal accountant or tax professional.

Climate Control Company is offering a free one (1) year planned maintenance on all new installations and all planned maintenance customers receive preferential status regarding repair and/or service calls.

NO NEED TO FEEL LIKE THIS! LET US HELP YOU BE COOL!
